Richland, WA 99352

Dear Messrs. Wagoner, Hatch, and Van Leuven:

Re: Completion of Corrective Measures at 222-S Laboratory Complex per Washington
State Department of Ecology's March 25, 1997, Notice of Correction

The Washington State Department of Ecology (Ecology) issued a Notice of Correction to the U.S. Department of Energy (USDOE), Fluor Daniel Hanford, Inc. (FDH), and Rust Federal Services of Hanford, Inc. (RFS) on March 25, 1997. The Notice of Correction identified three violations of Washington Administrative Code (WAC), chapter 173-303, Dangerous Waste Regulations at the 222-S Laboratory Complex on the Hanford Site. The Notice of Correction established corrective measures to resolve the outstanding violations by April 9, 1997. The Notice of Correction also stated that written requests for additional time to complete the corrective measures must be received by me no later than April 1, 1997. 47148

Ecology met with USDOE, FDH, and RFS on March 31, 1997, to clarify Ecology's expectations for completion of the corrective measures. At this meeting, Ecology agreed to allow USDOE, FDH, and RFS until April 9, 1997, to submit a written request for additional time for completion of the corrective measures, or significant portions of them. Ecology will meet with USDOE,

Messrs. Wagoner, Hatch, and Van Leuven
April 2, 1997
Page 2

FDH, and RFS on April 4, 1997, at which time specific corrective measures, or significant portions of them, will either be identified for completion by April 9, 1997, or another date agreeable to Ecology will be established for their completion.

If you have any questions or concerns regarding the above, please contact me at (509) 736-3031.

Sincerely,

A handwritten signature in cursive script, appearing to read "Bob Wilson".

Bob Wilson, Compliance Inspector
Nuclear Waste Program
